It is Rev. James K. Hazen, and not Dr. Hoge, who is to preach next Sunday at the Table-Street Presbyterian church. Dr. Hoge is in Scotland, and could not very well keep such an appointment. Mr. Hazen is the successor of Dr. Baird as secretary of the Publication Board.

On Sunday the 19th instant Rev. Dr. T. D. Witherspoon will dedicate the recentlyerected Presbyterian church at Stony creck, Sussex county. This is the only Presbyte-rian church in that section. After this dedication Dr. Witherspoon will join his family, who are spending the hot season in the mountains.

A marriage is to take place in this city next Wednesday between a young lady of one of our best families and a gentleman from Culpeper county. It is said that Madam Mitchell, the for-

tune-teller, has been consulted by large of the town, from whom she has reaped a good sum of money.

There is a good deal of excitement and indignation in town against John Hitchcock, the lady-insulter, and it seems likely that he will receive a formal invitation to change his residence if by reason of the difficulty of procuring legal evidence the courts are not able to maintain a case

Everybody is in the highest state of excitement about the proceedings of the Couvention, and the streets are full of rumors of the most sensational character as to what is going on and coming on in Richmond. ROBIN ADAIR.

CULPEPER COUNTY.

CULPEPER, August 7, 1877. outrage committed in our county Sunday last. Mr. Lucian Winston, living on his farm near Mitchell station, desirous of visiting his sick brother, a few miles off, left his house in charge of a young white girl named Britton; aged about twelve years. During his absence a negro boy named William Thompson visited the farm, and, finding the girl alone, by some means induced her to leave the house, when he seized, choked, and dragged her some one hundred yards to a woods near by, and |\$3,000-total, \$20,000. there shockingly outraged her person, maltreated and bruised her in such way as to leave her insensible and helpless. Rousing herself some time after, she managed to her abuser that Mr. Winston recognized the liam Thompson, who was overhauled yesterday evening, taken before the girl, who fully identified him, and at once hurried off to the station in transit for jail. On arriving at the station a crowd of negroes collected, and it was feared a rescue would be attempted, as they seemed much excited. A stone was thrown by one of them, which hit a white man on the platform and somewhat dislocated his "jaw," while another fired a pistol, which missing its aim, the ball took effect in the side of the negro who threw the rock, wounding him considerably. Here the riot ended. Thompson was taken before a magistrate, duly committed, and landed in jail to await his be issued promptly and served on the negroes engaged in the riot.

On Saturday night a small hurricane urged the flames with lightning-like rapidity, and brands from the fiery stretches were thrown broadcast by the sweeping winds. On Sunday morning there was no abatement of the flames, but the wind had moderated. The flames sprung up again, however, and all efforts to stay them were unavailing. Of what in the morning had been a thriving town before many hours had passed there were no more than three houses left stand-

with the clothes they had on. It is reported very circumstantially that two entire familes were destroyed by fire and three others are missing. There was a one of them left. All the cattle are freed from their confines, and are roaming through the fields, wild with terror, and are sure of destruction if they take shelter in the woods near at hand. Hundreds of dead bodies lie scattered around. Large parties of men from this city have gone to the place, and as soon as they can return something will be done to relieve the suffering, stricken people for the present. Many sufferers are sheltered in the county poor-house.

The British Grain Market.

A review of the British wheat trade reports that harvesting has commenced in some of the southern districts of England, and it is believed to have so far advanced numbers of the young ladies and gentlemen that nothing short of a disastrous change in weather, which is not likely, can affect the yield to any serious extent. The estimate now is that while the crop will be short of an average it will not be so "disappointing" as that of last year. The prevailing fine weather of the past week, and the quietude of the political situation, as far as England is concerned, has considerably depressed the wheat market. Great expectations appear to have been formed in regard to the new wheat crop of America, and it is said that unless the reports are exaggerated both India and Russia will find her a formidable rival. The crop in France, it is stated, will be enough for her own wants, but there will be but little for exportation. Both Germany and Russia have promise of abundant wheat erops. The decline on both English and foreign wheat during the week was one shilling per quarter. Corn has kept steady with the late advance in barley maintained.

THE PROFESSORS IN THE PAN-PRESBYTE-RIAN COUNCIL. - Nearly all the New York men have a cosmopolitan air about them and a popular style of oratory, and the same may be said of Dr. Eels, of California; but some others among the American delegation have the air of men who live among books, and are better acquainted with the old Reformers than with the men they meet on the street. THE INDIAN WAR-GENERAL HOWARD'S MOVE-MENTS WITH RESPECT TO CHIEF JOSEPH. HELENA, August 8 .- Mr. McCormick, of. Messoula, writes to Governor Potts on the

6th instant as follows: A courier arrived from General Howard at 6 o'clock this evening. He left Howard Saturday morning last, and thinks Howard will camp near the Summit, between the Lolo and the Meuroster, to-night. He is distant about fifty miles from the mouth of the Lolo. The courier reports that Joseph, with more than one half of his fighting force, has gone to the head of Bitter Root Valley, by the way of the Elk City trail, and will form a junction with Looking-Glass and White-Bird near Ross Hole. He says Howard has 750 men and 450 pack-mules, and is

moving as rapidly as possible. Advices from Upper Bitter Root say the Indians will camp to-night in Ross Hole. General Gibbon is following them rapidly Other advices say that the Indians were still at Doolittle, sixteen miles above Corvellis, and that Gibbon expected to strike them on the morning of the 7th before they broke camp.
